

NEW TEACHING BREWERY

A new Teaching Brewery is being built near the Greenhouse to accommodate the new Brewmaster and Brewery Operations Management program that will be introduced in September 2010.

This one-of-a kind program is not available anywhere else in Canada and has the backing by the Craft Brewers Industry. Linked with the Niagara College Brewing Institute, students will have hands-on experience learning and working in Canada's only teaching brewery.

New Teaching Brewery opens 2010

"The Ontario Craft Brewers are excited to be working together with Niagara College to train and develop graduates that meet the needs for a skilled workforce in our brewing industry."

John Hay, President, Ontario Craft Brewers
